

DevOps Engineer - Security (Mid)

Jelentkezési határidő: 2026-10-20

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

What we are looking for

- University degree in Computer Science, Telecommunication Engineering, Information Systems, or comparable qualification.
- Fluent in English.
- 2+ years proven experience in cloud technologies.
- **Technical skills**
- Basic understanding of Kubernetes security concepts, such as application configuration, RBAC, network policies, and secrets management.
- Familiarity with Linux-based environments and an interest in scripting and automation for security related tasks.
- Initial experience or exposure to Infrastructure as Code (IaC) using tools like Helm, Ansible, or Terraform.
- Basic knowledge of CI/CD pipelines and an interest in integrating security practices such as automated testing and code analysis.
- Exposure to monitoring tools (e.g., Prometheus, Grafana) is a plus.
- Basic programming or scripting skills (e.g., Python, Bash, or similar) and willingness to develop automation skills.
- Strong communicator and empathetic team player, able to collaborate effectively with diverse stakeholders while contributing independently.
- Creative problem solver with a continuous learning mindset, committed to innovation, knowledge sharing, and finding effective solutions to complex challenges.

Nice-to-Have

- Familiarity with GitOps concepts or tools like Argo CD is a plus.
- Awareness of Kubernetes policy enforcement tools (e.g., OPA/Gatekeeper, Kyverno).
- Basic understanding of vulnerability management or secure software development practices.
- Interest in APIs or cloud-native development concepts (e.g., Kubernetes operators).
- Basic awareness of regulatory and compliance topics.
- Relevant certifications or willingness to work towards them.
- Don't worry if you miss some of these skills – we are here to grow and develop you.

What you can expect

- Our team is dedicated to supporting new team members and we're building an environment that appreciates knowledge sharing and mentorship. Our experienced team members are passionate about coaching junior and new members of the team.
- We take a long-term commitment when it comes to our employees. You will develop your career working in truly innovative projects of Deutsche Telekom Group, exploring the latest trends and technologies which enable the product development process.
- We offer an open and friendly working environment, competitive remuneration package and attractive benefit scheme.
- Enjoy the benefits of flexible hours, part-time roles, and remote work options - so you can balance your career with family life and personal priorities.

Benefits and Training opportunities

- Flexible working hours with partial home office options.
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance).
- Employee discount rates on Telekom services.
- Modern, multinational working environment with amenities like a sky bar and rooftop gym.
- Access to our Employee Assistance Program.
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay
- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker

engineers on topics such as secure coding, DevSecOps principles, and modern security technologies.

- Stay informed about current security trends and threats, and support the team in enhancing the overall security posture.
- Participate in on-call rotation (for stand-by operations).

When and Where?

- You can join us whenever it suits you — we work in a flexible, hybrid setup with three days from home and two days at the Telekom Campus
