Full Stack Software Engineer

Application deadline: 2026-02-21

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

Your Skills & Experience

- Strong knowledge of at least one modern frontend framework (Angular, React)
- Knowledge of Typescript, JavaScript
- Node.js backend development knowledge
- Familiarity with cloud environments and are eager to deepen your skills (AWS or Azure)
- Basic knowledge of and openness to learn and contribute in an agile (SAFe/Scrum) setup
- Fluency in English (written and spoken)
- Ability to communicate clearly and collaborate effectively in a cross-functional environment
- You are open-minded, eager to learn, and take initiative without waiting to be told what to do

Bonus points for

- Experience with accessible application development and knowledge of accessibility standards
- Familiarity with Microsoft Power Platform (Power Apps, Power Automate) and low-code/no-code development
- German language skills, especially in a multinational environment

Why Join Us

- We are a collaborative, agile team where developers, designers, and product owners work closely together with business and end-users.
- You will have the chance to experiment with new technologies and contribute to impactful, user-

- centered digital solutions
- Enjoy a hybrid setup with flexibility and long-term stability

Benefits and training opportunities

- The opportunity to work on cutting-edge network technologies and shape the future of telecommunications
- Flexible working hours with partial home office options
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance)
- Employee discount rates on Telekom services
- Modern, multinational working environment with amenities like a sky bar and rooftop gym
- Access to our Employee Assistance Program
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay
- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker
- You'll have access to Percipio and Coursera courses

- optimization of internal processes.
- Take part in the full delivery lifecycle, from concept and prototyping to implementation and maintenance.
- Write clean, maintainable code and ensure high code quality
- Document your own work clearly and consistently to support maintainability and knowledge sharing.
- Work closely with experienced developers, product owners, and designers to understand user needs and deliver real value.
- Gradually take ownership of your own solutions as you grow in experience.

When?

- Whenever you can join us!

Where?

- Flexible, hybrid working method (3 days from home and 2 days from Magyar Telekom HQ)
