

# Network and automation engineer

Application deadline: 2025-10-30

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

## What You'll Bring

- **Network Knowledge:** Solid understanding of Layer 2 switching and basic Layer 3 routing principles.
- **Hands-On Attitude:** 2+ years of experience in network engineering, system operations, or a related technical role.
- **Scripting Basics:** Ability to write simple scripts or tools to support automation tasks.
- **Analytical Mindset:** Curiosity and problem-solving skills to work with complex systems.
- **Collaboration:** Good English communication skills and readiness to work in an international, cross-functional team.

## Even Better If You Have

- Experience with fiber access network equipment (OLT, ONT, CPE).
- Familiarity with workflow automation or provisioning systems.
- Knowledge of version control (Git) or CI/CD concepts.
- Background in telecommunications or large-scale IT environments.

## What we offer

- The opportunity to work on cutting-edge network technologies and shape the future of telecommunications.
- Continuous professional development through

training and courses (e.g., Coursera, Percipio).

- Flexible working hours with partial home office options.
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance).
- Employee discount rates on Telekom services.
- Modern, multinational working environment with amenities like a sky bar and rooftop gym.
- Access to our Employee Assistance Program.
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay

### Training opportunities

- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker
- You'll have access to Percipio and Coursera courses

automations where needed.

- **Automate Where It Matters:** Use scripting (e.g., Python, Ansible) to build small tools that make daily work more efficient.
- **Collaborate Across Teams:** Work closely with international colleagues to share findings, support deployments, and drive improvements.

### When?

- October 2025

### Where?

- Flexible, hybrid working method (3 days from home and 2 days from Magyar Telekom HQ)
