NetDevOps Engineer

Application deadline: 2026-11-20

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

WHAT WE'RE LOOKING FOR:

- Bachelor / Master Degree in Computer Science, Telecomunication Engineering, Information Systems or related field.
- More than five years' experience in area of network platforms design and test-ing, competence in carrier grade backbone / datacenter network engineering.
- Operational experience in networks' trouble shooting and root cause analysis.
- English language - fluent (verbal and written communication skills). Knowledge of other EU working languages would be an asset.
- Excellent customer service, written and oral communication skills, resourceful-ness and initiative.
- Ability to multitask in a busy and demanding environment.
- Strong analytical and conceptual skills.
- Ability to handle confidential and highly sensitive information.
- Excellent problem solving ability.

TECHNICAL SKILLS:

- **Network Skills:**
- Advanced layer 2 & 3 networks (e.g., IPv6, BGP, ISIS/OSPF, QoS, multicast, V/VXLAN, EVPN, Routing & Switching, MPLS etc.);
- Extensive knowledge of carrier grade / data center network hardware, routing, switching, network security and telecommunication circuits from major ven-dors, in particular Juniper, Cisco or Huawei (e.g Juniper QFX experience, Cisco Nexus experience)

- Experience on Linux networking, container networking and cloud networking;
- Knowledge on model driven network programmability.
- **Platform Skills:**
- Linux Administration / container fundamentals;
- Cloud fundamentals (e.g., openstack, SDN).
- **Programming Skills:**
- Data Formats (e.g., JSON, YAML, etc);
- Python and APIs (e.g., REST, NETCONF, etc);
- Source Control (e.g., git, GitLab, etc) ;
- Configuration Management (e.g., Ansible, etc)
- CCNP/CCIE or equivalent certification preferred
- MS office (Excel, PowerPoint, Word, Outlook, Visio, Project)

WHAT YOU CAN EXPECT:

- Our team is dedicated to supporting new team members and we're building an environment that appreciates knowledge sharing and mentorship. Our experienced team members are passionate about coaching new members of the team.
- We take a long-term commitment when it comes to our employees. You will develop your career working in truly innovative projects of Deutsche Telekom Group, exploring the latest trends and technologies which enable the product development process.
- We offer an open and friendly working environment, competitive remuneration package and attractive benefit scheme.

BENEFITS AND TRAINING OPPORTUNITIES:

- Flexible working hours with partial home office options.
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance).
  Employee discount rates on Telekom services.
- Modern, multinational working environment with amenities like a sky bar and rooftop gym.
- Access to our Employee Assistance Program.
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay
- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker
- You'll have access to Percipio and Coursera courses

HW/SW and lifecycle plans for the networks.
- Preparation of vendor specific configuration templates
- Define the network monitoring metrics and KPIs and track the performance of systems; apply the collected stastistics for network dimensioning and capacity planning.
- Develop network automation and network monitoring/telemetry products by using tools, methodologies & technologies such as git, CI/CD, pipeline, network abstraction, Network as Code, etc.
- Participate on solving and eliminating of ops issues – perform 2nd level support (rotating on-call duty required)
- Responsible for preparation of the techn. documentation through the lifecyle of networks, e.g., design, updates of the code, etc.

WHEN AND WHERE?

- You can join us whenever it suits you — we work in a flexible, hybrid setup with three days from home and two days at the Telekom Campus
