

Data Architect

Jelentkezési határidő: 2025-09-08

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

What we are looking for:

- Strong expertise in **enterprise data architecture and data ingestion design**, preferably in a **cloud environment (e.g., GCP)**.
- Deep understanding of **data engineering practices, ETL/ELT processes**, and real-time data streaming.
- Proficiency in **SQL, Python**, with Scala being a plus.
- Solid knowledge of **Apache Spark, Apache Kafka**, and other big data technologies.
- Familiarity with data governance principles, metadata management, and data quality frameworks.
- Experience with **CI/CD pipelines and automation** for data operations.
- Expertise in operational excellence including **monitoring, alerting, and incident management for data pipelines**.
- Ability to navigate complex **international and multi-cultural environments**, driving architectural consistency across countries.

General Requirements:

- Bachelor's or Master's degree in Computer Science, Engineering, Telecommunications, or a related field, or equivalent work experience.
- At least **5 years of experience in data architecture, data engineering, or related roles**.
- Experience in working within **multinational or European-wide programs**.
- Strong learning mindset to keep up with rapidly evolving data technologies and practices.
- Collaboration and cross-functional teamwork skills.

- Fluency in English and another European language (preferably Hungarian), both written and spoken, is required.

- It's a plus if you have experience with:

- Ceph storage system
- MinIO
- Apache Iceberg
- Trino
- Apache Flink
- DataRobot
- Grafana
- Telecommunications systems and data

Benefits and training opportunities:

- Flexible working hours with partial home office options.
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance).
- Employee discount rates on Telekom services.
- Modern, multinational working environment with amenities like a sky bar and rooftop gym.
- Access to our Employee Assistance Program.
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay
- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker
- You'll have access to Percipio and Coursera courses

operational standards for ingestion pipelines across cloud and legacy infrastructures.

- Ensure compliance with **data governance, data quality, and data security requirements**, including adherence to GDPR and other regulatory frameworks.
- Support the integration of data from a variety of source systems including **Kafka, MQ, SFTP, APIs, databases, and file shares**.
- Engage with stakeholders across different countries to **harmonize ingestion approaches and resolve architectural challenges**.
- Continuously explore emerging technologies and trends to enhance data ingestion capabilities.

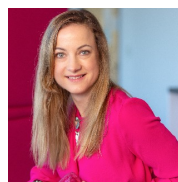

When?

- Whenever you can join us!

Where?

- Flexible, hybrid working method (3 days from home and 2 days from Magyar Telekom HQ)
