

Data Analyst

Jelentkezési határidő: 2025-09-08

Budapest

Magyar Telekom Nyrt.

Teljes munkaidő- határozatlan idejű

What we are looking for:

- Strong expertise in **SQL** for data analysis, validation, and profiling.
- Experience with **data quality frameworks and tools**, including defining data quality KPIs.
- Familiarity with **data governance principles, policies, and tools (preferably Collibra)**.
- Proficiency in **data visualization tools** like Power BI, Tableau, or Grafana.
- Basic knowledge of **Python or R** for data analysis and automation is an advantage.
- Understanding of **metadata management, data lineage, and data catalogs**.
- Strong analytical and problem-solving skills with the ability to interpret complex datasets.
- Knowledge of **cloud data platforms**, preferably GCP, is a plus.
- Ability to work effectively in a **multinational, cross-cultural environment**, collaborating across different European entities.
- Telecommunications related general **domain knowledge**

General Requirements:

- Bachelor's or Master's degree in Data Science, Statistics, Computer Science, Economics, or a related field.
- Minimum **3 years of experience** as a Data Analyst or Data Quality Analyst in a data-driven organization.
- Proven experience in **data quality management** and data governance practices.
- Experience in **international or multi-country data**

projects is preferred.

- Strong communication skills to translate technical findings into business-oriented insights.
- **Fluency in English and another European language (preferably Hungarian), both written and spoken, is required.**
- Self-starter with a **continuous learning mindset** and strong attention to detail.

It's a plus if you have experience with:

- Collibra Data Governance implementation and configuration
- Working within data ingestion and ETL/ELT environments
- Monitoring and alerting tools for data pipelines
- Data privacy regulations such as GDPR

Benefits and training opportunities:

- Flexible working hours with partial home office options.
- Comprehensive benefits package (laptop, mobile phone, cafeteria, insurance).
- Employee discount rates on Telekom services.
- Modern, multinational working environment with amenities like a sky bar and rooftop gym.
- Access to our Employee Assistance Program.
- Comprehensive Healthcare Package
- You will receive a minimum of 25 days of basic vacation per year (based on age)
- We offer 15 days of additional vacation if you become a father, with 100% pay
- You'll have access to thousands of professional and skills development materials from our extensive digital training palette
- We offer regular internal training sessions and workshops
- You can learn English and German, even with a native speaker
- You'll have access to Percipio and Coursera courses

metadata, data lineage, and data ownership are properly maintained.

- Create and maintain **dashboards and reports** to monitor data quality, ingestion performance, and operational KPIs.
- Conduct **root cause analysis** of data quality issues and coordinate remediation activities with relevant teams.
- Collaborate with business stakeholders across national companies to understand data needs and provide **data-driven insights** to support decision-making.
- Support **regulatory compliance efforts** (e.g., GDPR) by ensuring data usage aligns with privacy and security policies.
- Facilitate knowledge sharing and **best practice dissemination** across Deutsche Telekom's European data community.

When?

- Whenever you can join us!

Where?

- Flexible, hybrid working method (3 days from home and 2 days from Magyar Telekom HQ)
